McGuire Development Promotes From Within

BUFFALO, NY - McGuire Development Company, a local commercial development, brokerage and property management firm, is pleased to announce the promotion of Jennifer M. Teach of Buffalo to controller. She had previously held the position of senior accounting manager for the company.

As controller, Ms. Teach manages the day-to-day operations of McGuire Development Company's accounting department. This includes monthly reconciliation of general ledger accounts for multiple companies, preparing quarterly financial statements for McGuire property owners and banks, completing quarterly cash flow statements, and establishing new properties and tenant leases. In addition, Ms. Teach is active in the new development and owner's representation of institutional, commercial and residential properties.

Ms. Teach's broad understanding of the real estate financial structure brings an unparalleled level of service to the accounting division.

McGuire Development Company's full spectrum of services is focused around a signature transparent process. This includes clear, open dialogue with current and potential clients regarding all aspects of a business transaction, a practice that actively challenges the industry's status quo.
